Edexcel spanish a level vocab list

The new GCSE (2010) has encouraged me to re-fresh my existing Spanish KS4 resources. As well as additional resources to develop speaking skills, in particular spontaneous talk, I have also been keen to integrate skills as much as possible in my teaching, both to save valuable class time and also because it seems to make sense for teaching and learning. One example of this is to test vocabulary through sentence-based gap fills, which promote comprehension skills as well as testing individual word knowledge. This is definitely a work in progress and I plan to upload lessons as I teach them during the year. The first section includes the schemes of work, and other useful documents. The second section has the vocabulary challenges and will be added to each week. The final section has the lesson resources, organised according to our SOW, which follows the Edexcel specification.
